<https://abf.civicore.com/publicLogin/index.php?action=cal>
(This will take you to the calendar page, select April, then April 18th)

Once registered, please email Sherry Eklund at seklund@dvaerialphoto.com with the names of the people you have registered. (Family and friends are welcome to join in this event...must be at least 18yrs.)

Program background and information:

This program exists to be sure that anyone living in older homes or in high risk areas have at least one working smoke alarm in their home.

AZ Burn Foundation partners with Fire Departments and civic or corporate organizations. At risk neighborhoods are identified by Fire Department partners. With their partners and volunteers they install new Dual Sensor smoke alarms and check existing alarms for free. For the smoke alarm installation walks, training is done in the morning of each event, prior to the start of the walk. Typically the training starts at 8:00 a.m. and the installation walk ends around noon. There are 2 or 3 people on each team, 1 person generally handles the smoke alarm installations or checking of batteries in existing smoke alarms. One of the other team members handles the paperwork which includes handing out burn prevention brochures and a release form the homeowner needs to sign/date if an installation occurs.
