

CHASE FIELD TOUR

Home to the Arizona Diamondbacks major-league baseball team, Chase Field has undergone extensive structural repairs over the past five years. All of the repairs have been the result of corrosion damages due to wash-down of the Stadium for cleaning after each event for its 18 year existence. Tour the Stadium and learn about the problems that prompted the repairs, the repair methods used, the importance of waterproofing and the severe impact the damage had on the structures.

**This tour is limited
to the first 15
RSVPs**

**Date: Tuesday
November 1st
4 pm**

**Directions &
parking
information will be
sent by October
25, 2016 to those
who have RSVP'd**

RSVP TO:

**Tina Biebl no later than
October 18th if you are
planning to attend.
