8:30 am - 1:30 pm

Blueprint Reading is an introductory course which will help familiarize attendees with the various 'sheets' in a plan set.

The seminar covers plan views, sections, elevations, details, and special drawings.

It will explain the divisions by discipline; legends and schedules found in plans; scales and conversions; isometrics and schematics.

The course is hands-on and interactive.

Cost:

\$50 for members / \$55 for non-members

Cash / Check payable at the door

Register on line via EventBrite at
